# How to create a new Node

**Table of Contents**

<b><i>How to create a new Node</i></b> .....	<b>1</b>
----------------------------------------------	----------

## How to create a new Node

- Goto nStudio server <http://www.n-blocks.net/panel.php?p=author>, Your Nodes, Upload New
- Define the node Name, Category, Inputs,Outputs,Parameters
- Create 2 files using the provided templates
  - my\_node.h
  - my\_node.cpp
- Then copy the .h and .cpp files to the directory "mbed\_code" inside your computer [this will not be needed in the future, the 2 files from the server will be automatically downloaded to PC]
- Add the new Node to the imported nodes at <http://www.n-blocks.net/panel.php?p=author>
- If the studio is running in your PC then restart it to import the new node
