How to create a new Node

Table of Contents

How to create a new Node

- Goto nStudio server http://www.n-blocks.net/panel.php?p=author, Your Nodes, Upload New
- Define the node Name, Category, Inputs, Outputs, Parameters
- Create 2 files using the provided templates
 - my_node.h
 - o my_node.cpp
- Then copy the .h and .cpp files to the directory "mbed_code" inside your computer [this will not be needed in the future, the 2 files from the server will be automatically downloaded to PC]
- Add the new Node to the imported nodes at http://www.n-blocks.net/panel.php?p=author
- If the studio is running in your PC then restart it to import the new node
